OFFICE FINANCIAL POLICY

INFORMATION TO BETTER SERVE YOU

PAYMENT OPTIONS

OPTION 1.

If you have dental insurance, we will File your claims as a courtesy for you. We do ask that you pay your deductible and estimated portion at each visit. We allow 60 days for your insurance company to make payment. After this time, all inquiries (follow up) and payments due become your responsibility. Please understand that your dental insurance is based on a contract between your employer and the insurance company. While we make every effort to utilize your insurance, we ask that you understand that there are vast differences in each company and plan and we are limited in the knowledge that they provide to us about your particular plan.

OPTION 2.

For patients who do not carry dental insurance, you may pay at the time of your appointment with a personal check, Mastercard, or Visa.

OPTION 3.

For patients who wish to establish a payment plan, they may use the CareCredit financing service. Many of our patients have utilized this service and have found it convenient, with affordable monthly payments. There are several options available with this service. These range from a standard revolving account to plans which offer no interest over several months. We will explain the options available and help with the forms to establish an account.

We realize that quality dental work can sometimes be an expense. Therefore, we have tried to make every effort to ease this by providing a variety of means to meet it. Please let us know if we can help in any way.
